# **GIDA SOCIAL STUDIES**

## **Assessment Philosophy and Purpose**

The Growth-Informed Development Assessment (GIDA) framework was originally developed to provide educators with a systematic way to document student growth over time through multiple forms of evidence. Rather than relying on a single test score, GIDA emphasizes the collection of information across a variety of assessment contexts to create a more complete picture of student learning.

As the framework evolved, it became apparent that content-specific assessment systems were needed to accurately capture student understanding within individual disciplines. Although language development is an essential component of all learning, content knowledge should not be viewed solely through a language lens. Students may demonstrate sophisticated understanding of social studies concepts through discussion, drawing, sorting, performance tasks, and other authentic forms of assessment that extend beyond traditional language measures.

For this reason, the GIDA Social Studies Assessment Series was developed as a companion assessment framework. The purpose of GIDA Social Studies is to examine how students understand people, communities,

goods and services, places, and civic roles through developmentally appropriate assessment tasks aligned to the Colorado Academic Standards and classroom curriculum.

The GIDA Social Studies framework is guided by several core beliefs:

### **Assessment Should Measure Understanding, Not Simply Recall**

Social studies learning involves more than memorizing facts. Students should have opportunities to explain relationships, identify patterns, discuss community roles, and apply concepts learned during instruction.

Assessment tasks should therefore encourage students to demonstrate understanding in multiple ways rather than rely exclusively on selected-response items.

### **Assessment Should Reflect Instruction**

Students should be assessed on concepts, vocabulary, and experiences that were explicitly taught during instruction. The purpose of assessment is not to determine what students can guess or infer from unfamiliar situations, but rather to provide meaningful evidence of learning connected to classroom experiences. Therefore, all assessment tasks within the GIDA Social Studies framework are directly aligned to instructional content.

## **Assessment Should Be Developmentally Appropriate**

Young learners often possess greater understanding than they can communicate through writing. For this reason, GIDA Social Studies incorporates multiple response formats including speaking, pointing, drawing, picture manipulation, sorting activities, and teacher-recorded responses. These options allow students to demonstrate understanding without unnecessary literacy barriers.

## **Assessment Should Support All Learners**

The framework recognizes that students enter classrooms with diverse linguistic, cultural, and educational experiences. Assessment should provide opportunities for all students to demonstrate understanding while documenting the supports and accommodations that make participation possible. By separating content understanding from language production when appropriate, educators can obtain a more accurate picture of student learning.

## **Assessment Should Inform Instruction**

The ultimate purpose of assessment is to improve teaching and learning. Information collected through GIDA Social Studies is intended to help educators identify strengths, monitor growth, address

misconceptions, and make informed instructional decisions. Assessment is viewed as an ongoing process rather than a single event.

## **Why a Separate Social Studies Assessment?**

The CKLA Farms domain provides rich opportunities for students to develop social studies understandings related to economics, civics, and geography. Students learn where food comes from, how communities depend upon producers, the roles people play within a community, and the ways farms contribute to everyday life.

While these concepts are embedded throughout the curriculum, they are often assessed primarily through language arts measures. The GIDA Social Studies framework was created to provide a complementary assessment system that examines social studies understanding directly while maintaining alignment with the instructional goals of the curriculum.

Rather than replacing classroom assessments, GIDA Social Studies serves as an additional tool for documenting student understanding of social studies concepts through authentic, standards-aligned assessment experiences.

For the Farms domain, the strongest alignment occurs within the areas of economics, civics, and geography.

Assessment tasks were intentionally selected from concepts explicitly taught throughout the unit to ensure instructional alignment and meaningful interpretation of student performance.

# Assessment Overview

## GIDA Social Studies Assessment

### Farms Domain

Assessment Type:

Pre-Assessment, Formative Assessment, and Summative Assessment System

Grade Level:

Kindergarten

Content Area:

Social Studies

Curriculum Alignment:

CKLA Knowledge Domain: Farms

Colorado Academic Standards Alignment:

Primary Alignment:

- Economics
- Civics
- Geography

Secondary Alignment:

- History (limited within this domain)

Administration Time:

45–60 Minutes

## Administration Format:

Individual, Small Group, or Whole Group Components

## Purpose:

The purpose of this assessment is to evaluate student understanding of social studies concepts embedded within the CKLA Farms domain. Assessment tasks focus on the relationships between producers and consumers, community roles, places within a community, and the ways farms contribute to everyday life.

The assessment was designed to provide multiple opportunities for students to demonstrate understanding through discussion, picture analysis, sorting activities, performance tasks, and teacher observation.

Student performance data is intended to support instructional decision-making, identify strengths and misconceptions, and document growth throughout the instructional unit.

## Response Formats:

- Speaking
- Pointing
- Sorting
- Drawing

- Teacher-recorded responses
- Performance tasks

This assessment is intended to complement classroom instruction and should be interpreted alongside other sources of evidence including observations, student work, and classroom participation.

# **ASSESSMENT DEVELOPMENT DISCLAIMER**

This assessment was created by a teacher candidate as part of a university assessment project. It was developed using concepts drawn from the CKLA Knowledge Domain: Farms, the Colorado Academic Standards for Social Studies, and research-based assessment practices for young learners.

This assessment has not undergone formal field testing, psychometric analysis, validity studies, reliability studies, or peer review. It should not be considered an officially validated assessment instrument and is not intended for grading, student placement, language proficiency determination, special education referral, or program evaluation.

This assessment is presented solely as an academic demonstration of assessment design and assessment literacy.

Student performance should be interpreted in conjunction with classroom observations, instructional experiences, student work samples, and other sources of evidence.

# STUDENT EDUCATIONAL AND LANGUAGE PROFILE

## Student Information

Student Name: \_\_\_\_\_

Date: \_\_\_\_\_

Grade: \_\_\_\_\_

Age: \_\_\_\_\_

School: \_\_\_\_\_

Teacher: \_\_\_\_\_

## Educational Background

Years Enrolled in U.S. Schools:

- ☐ Less than 1 year
- ☐ 1–2 years
- ☐ 3–5 years
- ☐ More than 5 years

Has the student experienced interruptions in formal schooling?

- ☐ Yes

☐ No

If yes, please explain:

## **Language Background**

Primary Language(s) Spoken at Home:

Additional Language(s):

Language of Assessment:

## **Language Supports Commonly Used During Instruction**

Check all that apply.

- ☐ Visual Supports
- ☐ Gestures
- ☐ Teacher Modeling
- ☐ Repeated Directions
- ☐ Additional Wait Time
- ☐ Sentence Frames
- ☐ Word Banks

- ☐ Native Language Support
- ☐ Peer Support
- ☐ Graphic Organizers
- ☐ Other \_\_\_\_\_

## **Student Communication Profile**

The student most often communicates through:

- ☐ Gestures
- ☐ Single Words
- ☐ Phrases
- ☐ Complete Sentences
- ☐ Extended Explanations
- ☐ Written Responses

## **Academic Vocabulary Use**

The student typically:

- ☐ Uses academic vocabulary independently
- ☐ Uses academic vocabulary with prompting
- ☐ Uses limited academic vocabulary
- ☐ Rarely uses academic vocabulary

## **Assessment Considerations**

Are there factors that may influence assessment performance?

- ☐ Recent Absence
- ☐ Limited Prior Knowledge
- ☐ Language Acquisition
- ☐ Processing Time Needs
- ☐ Attention Considerations
- ☐ Anxiety During Assessments
- ☐ Medical Considerations
- ☐ Other \_\_\_\_\_

Comments:

## **Administrator Notes**

Use this section to document information that may assist in the interpretation of assessment results.

# **ACCOMMODATION TRACKING FORM**

## **GIDA Social Studies Assessment**

### **CKLA Farms Domain**

Student Name: \_\_\_\_\_

## **PART A**

### **Economic Understanding: Producers, Products, and Consumers**

#### **Assessment Type**

Pre-Assessment and Formative Assessment

#### **CAS Alignment**

Economics

#### **CKLA Alignment**

CKLA Knowledge Domain: Farms

Lessons addressing:

- Farm animals
- Farm products
- Crops
- Food production
- How farms help people

#### **Administration Time**

15–20 Minutes

#### **Administrator Directions**

Read all directions exactly as written.

Students may respond through:

- Speaking
- Pointing
- Drawing
- Teacher-recorded responses

Do not provide corrective feedback during administration.

Record responses immediately.

Visual supports may be used when appropriate.

## **Part A1**

### **Product Identification**

#### **Teacher Script**

Look at each picture.

Tell me where the product comes from.

#### **Items**

1. Milk
  - A. Cow
  - B. Chicken

C. Sheep

2. Eggs

A. Cow

B. Chicken

C. Pig

3. Wool

A. Sheep

B. Horse

C. Duck

4. Corn

A. Crop

B. Animal

5. Apples

A. Crop

B. Animal

## **Scoring**

1 point each

Total Possible: 5 Points

---

## **Part A2**

### **Producers and Products**

#### **Teacher Script**

Tell me which product belongs with each animal or crop.

#### **Matching Activity**

Cow → Milk

Chicken → Eggs

Sheep → Wool

Corn Plant → Corn

Apple Tree → Apples

#### **Scoring**

1 point per correct match

Total Possible: 5 Points

---

## **Part A3**

### **Understanding Goods**

#### **Teacher Script**

Answer the questions about food and farms.

#### **Questions**

1. Where does milk come from?
2. Where do eggs come from?
3. Why do people need farms?
4. Name one food that comes from a farm.

#### **Oral Response Rubric**

0 = No response

1 = Partial understanding

2 = Accurate understanding

3 = Detailed understanding

Maximum Score: 12 Points

(4 Questions × 3 Points)

---

## **Part A4**

### **Producer and Consumer Understanding**

#### **Teacher Script**

Look at the pictures.

Point to:

- The producer
- The consumer

#### **Visuals**

Picture Set 1:

Farmer

Family

Picture Set 2:

Apple Tree

Child Eating Apple

Picture Set 3:

Cow

Family Drinking Milk

## **Follow-Up Questions**

Who helps make the food?

Who uses the food?

## **Scoring Rubric**

0 = No understanding

1 = Partial understanding

2 = Accurate understanding

3 = Detailed understanding

Maximum Score: 6 Points

(2 Questions  $\times$  3 Points)

---

## PART A SCORE SUMMARY

| Component                       | Earned | Possible |
|---------------------------------|--------|----------|
| Product Identification          | _____  | 5        |
| Producers and Products          | _____  | 5        |
| Understanding Goods             | _____  | 12       |
| Producer/Consumer Understanding | _____  | 6        |

**TOTAL**

\_\_\_\_\_ / 28

# **PART B**

## **Community Roles and Interdependence**

### **Assessment Type**

Formative Assessment

### **CAS Alignment**

Civics

### **CKLA Alignment**

CKLA Knowledge Domain: Farms

Lessons addressing:

- Farmers
- Farm workers
- Animal care
- Food production
- Community connections

### **Administration Time**

10–15 Minutes

### **Administrator Directions**

Read all directions exactly as written.

Students may respond through:

- Speaking
- Pointing
- Drawing
- Teacher-recorded responses

Visual supports may be used.

Do not provide corrective feedback.

Record responses immediately.

## **Part B1**

### **Who Does This Job?**

#### **Teacher Script**

Look at the picture.

Tell me what this person does.

#### **Picture Set**

1. Farmer
2. Veterinarian
3. Truck Driver

#### 4. Grocery Worker

### Scoring Rubric

0 = No response

1 = Identifies person

2 = Describes job

3 = Explains how the job helps others

Maximum Score:

12 Points

(4 Items  $\times$  3 Points)

## Part B2

### Matching Community Roles

#### Teacher Script

Match the person to the job.

#### Items

Farmer  $\rightarrow$  Grows food

Veterinarian  $\rightarrow$  Helps animals stay healthy

Truck Driver  $\rightarrow$  Delivers food

Grocery Worker → Helps people buy food

## **Scoring**

1 point per correct match

Maximum Score:

4 Points

## **Part B3**

### **Who Helps First?**

#### **Teacher Script**

Look at the pictures.

Put them in order.

#### **Sequence Cards**

Farmer

Truck Driver

Grocery Worker

Family

## **Follow-Up Questions**

Who helps first?

Who helps last?

Who helps before the family gets food?

## **Scoring Rubric**

0 = No understanding

1 = Partial sequence

2 = Mostly correct sequence

3 = Complete sequence

Maximum Score: 6 Points

---

## **Part B4**

### **Community Connections**

#### **Teacher Script**

Answer these questions.

#### **Questions**

1. Why is a farmer important?
2. How does a truck driver help families?
3. What would happen if farms stopped producing food?

#### **Response Rubric**

0 = No response

1 = Partial understanding

2 = Accurate understanding

3 = Detailed understanding

Maximum Score: 9 Points

(3 Questions × 3 Points)

---

## PART B SCORE SUMMARY

| Component                | Earned | Possible |
|--------------------------|--------|----------|
| Who Does This Job?       | _____  | 12       |
| Matching Community Roles | _____  | 4        |
| Who Helps First?         | _____  | 6        |
| Community Connections    | _____  | 9        |

**TOTAL**

\_\_\_\_\_ / 31

# **PART C**

## **Places on a Farm**

### **Assessment Type**

Formative Assessment

### **CAS Alignment**

Colorado Academic Standards

Kindergarten Geography

SS.K.2.2

Identify how the environment influences the way people live.

### **CKLA Alignment**

CKLA Knowledge Domain: Farms

Lessons addressing:

- Farm environments
- Barns
- Fields
- Pastures
- Chicken coops
- Animal shelters

- Farm animals and their habitats

## **Administration Time**

10–15 Minutes

### **Administrator Directions**

Read all directions exactly as written.

Students may respond through:

- Speaking
- Pointing
- Picture matching
- Drawing
- Teacher-recorded responses

Visual supports may be used when appropriate.

Do not provide corrective feedback during administration.

Record responses immediately.

## **Part C1**

### **Identify the Place**

#### **Teacher Script**

Look at each picture. Tell me what place you see.

## **Picture Set**

1. Barn
2. Pasture
3. Chicken Coop
4. Field
5. Animal Shelter

## **Scoring Rubric**

0 = No response

1 = Identifies place with support

2 = Identifies place independently

Maximum Score: 10 Points

(5 Items  $\times$  2 Points)

---

## **Part C2**

### **Where Does It Belong?**

#### **Teacher Script**

Match each animal to the place where it belongs on the farm.

## **Matching Activity**

Cow → Pasture

Chicken → Chicken Coop

Horse → Barn

Pig → Pen

Sheep → Pasture

## **Scoring**

1 point per correct match

Maximum Score:

5 Points

## **Part C3**

### **Why Is This Place Important?**

#### **Teacher Script**

Answer the questions using complete thoughts when possible.

## **Questions**

1. Why do cows need a pasture?

2. Why do chickens need a coop?
3. Why do farm animals need shelter?

## **Response Rubric**

0 = No response

1 = Partial understanding

2 = Accurate understanding

3 = Detailed understanding

Maximum Score:

9 Points

(3 Questions × 3 Points)

## **Part C4**

### **Farm Place Sort**

#### **Teacher Script**

Place each picture into the correct group.

Group 1:

Places found on a farm

Group 2:

Places not usually found on a farm

## **Picture Cards**

Barn

Pasture

Chicken Coop

Field

Pig Pen

Movie Theater

Airport

Shopping Mall

Subway Station

Skyscraper

## **Classification Rubric**

0 = Few correct classifications

1 = Some correct classifications

2 = Mostly correct classifications

3 = All classifications correct

Maximum Score:

3 Points

## **Part C5**

### **Draw and Explain**

#### **Teacher Script**

Draw one place found on a farm.

Then tell me:

- What it is called
- Who or what uses it
- Why it is important

Administrator records student responses as needed.

#### **Drawing Rubric**

0 = No drawing

1 = Drawing with limited connection to farm place

2 = Drawing clearly represents a farm place

3 = Drawing includes details that demonstrate understanding

#### **Explanation Rubric**

0 = No explanation

1 = Names the place

2 = Describes who or what uses the place

3 = Explains why the place is important

Maximum Score: 6 Points

(3 Drawing + 3 Explanation)

\_\_\_\_\_

## PART C SCORE SUMMARY

| Component                    | Earned | Possible |
|------------------------------|--------|----------|
| Identify the Place           | _____  | 10       |
| Where Does It Belong?        | _____  | 5        |
| Why Is This Place Important? | _____  | 9        |
| Farm Place Sort              | _____  | 3        |
| Draw and Explain             | _____  | 6        |

**TOTAL**

\_\_\_\_\_ / 33

## **Administrator Observation Notes**

Student demonstrated understanding of:

- ☐ Farm environments
- ☐ Animal habitats
- ☐ Shelter needs
- ☐ Relationship between animals and places
- ☐ Geographic vocabulary
- ☐ Oral explanation skills

Notes:

# **PART D**

## **Why Are Farms Important?**

### **Assessment Type**

Summative Performance Assessment

### **CAS Alignment**

Colorado Academic Standards

Primary Alignment:

- Economics (SS.K.3.1)
- Civics (SS.K.4.1)
- Geography (SS.K.2.2)

### **CKLA Alignment**

CKLA Knowledge Domain: Farms

Culminating Assessment

### **Administration Time**

10–15 Minutes

## **Administrator Directions**

This section is intended to provide students with an opportunity to demonstrate integrated understanding of concepts taught throughout the Farms domain.

Students may respond through:

- Speaking
- Drawing
- Pointing
- Picture selection
- Teacher-recorded responses

Visual supports may be used.

Do not provide corrective feedback.

Record student responses as accurately as possible.

## **Part D1**

### **Community Connections**

#### **Teacher Script**

Look at these pictures.

Tell me how each one is connected to a farm.

## Picture Set

Farmer

Cow

Field

Truck

Grocery Store

Family Eating Dinner

## Scoring Rubric

0 = No response

1 = Identifies picture

2 = Explains basic connection to farm

3 = Explains how the picture helps provide food to people

Maximum Score:18 Points

(6 Items × 3 Points)

---

## **Part D2**

### **Put It in Order**

#### **Teacher Script**

Put these pictures in order to show how food gets from a farm to a family.

#### **Sequence Cards**

Farm

Truck

Store

Family

#### **Follow-Up Questions**

1. What happens first?
2. What happens next?
3. What happens last?

#### **Scoring Rubric**

0 = No understanding

1 = Partial sequence

2 = Mostly correct sequence

3 = Complete sequence with explanation

Maximum Score:

6 Points

## **Part D3**

### **Why Are Farms Important?**

#### **Teacher Script**

Answer the question.

Why are farms important?

Tell me as much as you can.

Administrator records student response.

#### **Performance Rubric**

0 = No response

1 = Limited understanding

Examples:

- Farms have animals.

2 = Basic understanding

Examples:

- Farms give us food.

3 = Strong understanding

Examples:

- Farms grow food and raise animals.

4 = Comprehensive understanding

Examples:

- Farms provide food, help communities, and support families.

Maximum Score:

4 Points

## **Part D4**

### **Draw and Explain**

#### **Teacher Script**

Draw a picture showing how a farm helps people.

Then explain your drawing.

Administrator may record student explanation.

#### **Drawing Rubric**

0 = No drawing

1 = Limited connection to farm concepts

2 = Includes one farm concept

3 = Includes multiple farm concepts

4 = Clearly demonstrates understanding of how farms help people

## **Explanation Rubric**

0 = No explanation

1 = Labels objects

2 = Describes actions

3 = Explains relationships

4 = Explains how farms help people and communities

Maximum Score:8 Points

(4 Drawing + 4 Explanation)

---

## PART D SCORE SUMMARY

| Component                | Earned | Possible |
|--------------------------|--------|----------|
| Community Connections    | _____  | 18       |
| Put It in Order          | _____  | 6        |
| Why Are Farms Important? | _____  | 4        |
| Draw and Explain         | _____  | 8        |

**TOTAL**

\_\_\_\_\_ / 36

## **Administrator Observation Notes**

Student demonstrated understanding of:

- ☐ Food production
- ☐ Community roles
- ☐ Farm environments
- ☐ Sequencing
- ☐ Cause-and-effect relationships
- ☐ Connections between farms and families
- ☐ Oral explanation skills
- ☐ Social studies vocabulary

Notes:

# **GIDA SOCIAL STUDIES**

## **PERFORMANCE CONTINUUM**

### **Kindergarten Social Studies Assessment**

#### **CKLA Farms Domain**

The GIDA Social Studies Performance Continuum is intended to provide a consistent framework for interpreting assessment results across multiple content domains.

Performance levels should be interpreted alongside classroom observations, student work samples, instructional experiences, and administrator notes.

## **ENTERING**

### **Score Range**

0–32 Points

### **Characteristics**

Students at the Entering level are beginning to demonstrate awareness of concepts taught within the Farms domain.

Students may:

- Identify some farm animals or products
- Participate with significant support

- Use limited social studies vocabulary
- Demonstrate understanding primarily through pointing or picture selection
- Require extensive prompting

Instructional Focus:

Provide additional opportunities for concrete experiences, visual supports, modeling, and guided practice.

## **EMERGING**

### **Score Range**

33–64 Points

### **Characteristics**

Students at the Emerging level demonstrate developing understanding of farm-related social studies concepts.

Students may:

- Correctly identify many farm products and locations
- Describe some community roles
- Explain simple relationships between farms and food
- Use basic social studies vocabulary
- Require occasional prompting

Instructional Focus:

Increase opportunities for explanation, discussion, and application of concepts.

## **DEVELOPING**

### **Score Range**

65–96 Points

### **Characteristics**

Students at the Developing level demonstrate consistent understanding of most concepts taught within the Farms domain.

Students may:

- Explain how farms help families
- Describe community roles and responsibilities
- Connect animals to environments
- Sequence events accurately
- Use content vocabulary independently

Instructional Focus:

Expand opportunities for deeper explanation and connections across concepts.

# **EXPANDING**

## **Score Range**

97–115 Points

## **Characteristics**

Students at the Expanding level demonstrate strong understanding of social studies concepts and can apply them across multiple contexts.

Students may:

- Explain relationships between people, places, and goods
- Provide evidence for their thinking
- Make connections among economics, civics, and geography concepts
- Use academic vocabulary accurately
- Require minimal support

Instructional Focus:

Encourage extended reasoning, discussion, and transfer of learning.

# **BRIDGING**

## **Score Range**

116–128 Points

## **Characteristics**

Students at the Bridging level demonstrate comprehensive understanding of concepts taught within the Farms domain.

Students may:

- Integrate multiple social studies concepts into explanations
- Demonstrate strong reasoning and communication
- Explain how farms support families and communities
- Transfer understanding to unfamiliar situations
- Use content vocabulary independently and accurately

Instructional Focus:

Provide enrichment opportunities and opportunities for leadership and peer collaboration.

## **Important Note**

Performance levels are intended to describe current understanding within this instructional domain and should not be interpreted as grade-level placement, academic ability, or readiness for future coursework.

Performance levels should be considered one source of evidence within a comprehensive assessment system.

# **APPENDIX A**

## **Visual Materials Guide**

The following visual materials are required for administration of the GIDA Social Studies Assessment: Farms Domain.

### **Part A – Economics**

Visuals Needed:

- Cow
- Chicken
- Sheep
- Corn Plant
- Apple Tree
- Milk
- Eggs
- Wool
- Corn
- Apples
- Farmer
- Family

- Child Eating Apple
- Family Drinking Milk

## **Part B – Civics**

Visuals Needed:

- Farmer
- Veterinarian
- Truck Driver
- Grocery Worker
- Family

## **Part C – Geography**

Visuals Needed:

- Barn
- Pasture
- Chicken Coop
- Animal Shelter
- Field
- Pig Pen
- Movie Theater

- Airport
- Shopping Mall
- Subway Station
- Skyscraper

## **Part D – Integrated Performance**

Visuals Needed:

- Farmer
- Cow
- Field
- Truck
- Grocery Store
- Family Eating Dinner
- Farm
- Truck
- Store
- Family

All visuals should be clear, age-appropriate, culturally responsive, and representative of concepts explicitly taught within the CKLA Farms Domain.

## **APPENDIX B**

### **Administration Reference Sheet**

#### **Standardized Administration Procedures**

1. Read all directions exactly as written.
2. Provide only the accommodations documented on the Accommodation Tracking Form.
3. Do not provide corrective feedback during administration.
4. Allow sufficient wait time for student responses.
5. Record responses as accurately as possible.
6. Encourage participation without indicating whether responses are correct or incorrect.
7. Complete observation notes immediately following administration.

#### **Acceptable Response Formats**

Students may demonstrate understanding through:

- Oral responses
- Pointing
- Picture selection
- Drawing

- Sorting activities
- AAC devices
- Gestures
- Teacher-recorded responses

## **Administration Expectations**

The assessment is designed to measure social studies understanding.

Whenever possible, administrators should separate content understanding from literacy demands.

Students should not be penalized for developmental writing limitations when demonstrating social studies knowledge.

# APPENDIX C

## CAS and Curriculum Alignment Matrix

| Assessment Component                    | CKLA Farms Alignment               | Colorado Academic Standards Alignment |
|-----------------------------------------|------------------------------------|---------------------------------------|
| Part A: Product Identification          | Farm Animals and Products          | Economics (SS.K.3.1)                  |
| Part A: Producers and Products          | Food Production                    | Economics (SS.K.3.1)                  |
| Part A: Understanding Goods             | How Farms Help People              | Economics (SS.K.3.1)                  |
| Part A: Producer/Consumer Understanding | Food Sources                       | Economics (SS.K.3.1)                  |
| Part B: Community Roles                 | Farm Workers and Community Helpers | Civics (SS.K.4.1)                     |
| Part B: Matching Community Roles        | Community Participation            | Civics (SS.K.4.1)                     |
| Part B: Community Connections           | People Working Together            | Civics (SS.K.4.1)                     |
| Part C: Farm Environments               | Barns, Fields, Pastures, Coops     | Geography (SS.K.2.2)                  |
| Part C: Animal Habitats                 | Farm Environments                  | Geography (SS.K.2.2)                  |
| Part C: Draw and Explain                | Farm Places and Their Purposes     | Geography (SS.K.2.2)                  |
| Part D: Community Connections           | Farms and Communities              | Economics, Civics                     |
| Part D: Food Sequence                   | Farm to Family                     | Economics                             |
| Part D: Why Are Farms Important?        | Domain Synthesis                   | Economics, Civics, Geography          |
| Part D: Draw and Explain                | Culminating Understanding          | Economics, Civics, Geography          |

**Alignment Notes**

The CKLA Farms Domain demonstrates strongest alignment to:

- Economics
- Civics
- Geography (SS.K.2.2)

The assessment intentionally emphasizes standards and concepts explicitly taught within the curriculum.

Kindergarten Geography Standard SS.K.2.1 (Maps and Geographic Tools) was not a major instructional focus within the Farms Domain and is therefore not directly assessed.

## APPENDIX D

### Condensed Rubric Reference Sheet

#### GIDA Social Studies Assessment

#### CKLA Farms Domain

This reference sheet is intended to support efficient and consistent scoring across all assessment components.

#### 0–3 Rubric Scale

| S<br>c<br>o<br>r<br>e | Description                                                                                              |
|-----------------------|----------------------------------------------------------------------------------------------------------|
| 0                     | No response or demonstrates no understanding of the concept being assessed.                              |
| 1                     | Demonstrates limited or partial understanding.<br>Requires substantial support or prompting.             |
| 2                     | Demonstrates accurate understanding of the concept with minimal support.                                 |
| 3                     | Demonstrates detailed understanding and can explain concepts using appropriate vocabulary and reasoning. |

## 0–4 Performance Rubric Scale

| S<br>c<br>o | Description                                                                           |
|-------------|---------------------------------------------------------------------------------------|
| 0           | No response or no evidence of understanding.                                          |
| 1           | Demonstrates limited understanding of the concept.                                    |
| 2           | Demonstrates basic understanding and can identify key concepts.                       |
| 3           | Demonstrates strong understanding and can explain relationships among concepts.       |
| 4           | Demonstrates comprehensive understanding and integrates multiple concepts accurately. |

## **Scoring Reminders**

Administrators should:

- Consider content understanding before language production.
- Allow students multiple opportunities to demonstrate understanding.
- Use observation notes when interpreting scores.
- Consider documented accommodations when reviewing performance.
- Record responses as accurately as possible.

## **Evidence of Understanding May Include**

- ☐ Oral explanations
- ☐ Pointing
- ☐ Picture selection
- ☐ Drawing
- ☐ Sorting
- ☐ Gestures
- ☐ Teacher-recorded responses
- ☐ AAC-supported responses

## **Interpretation Guidance**

Scores should be interpreted alongside:

- Classroom observations
- Student work samples
- Participation in instruction
- Accommodation records
- Administrator notes

No single assessment score should be used as the sole indicator of student understanding.

## **APPENDIX E**

### **References and Source Materials**

#### **Primary Instructional Resources**

Core Knowledge Language Arts (CKLA).

Knowledge Domain: Farms.

Amplify Education.

#### **Standards Alignment**

Colorado Department of Education.

Colorado Academic Standards for Social Studies (2022).

Kindergarten Standards:

- History
- Geography
- Economics
- Civics
- Personal Financial Literacy

## **Assessment Development References**

Colorado Department of Education.

Colorado Academic Standards Implementation Resources.

Assessment literacy concepts informed by current educational research and coursework in curriculum, instruction, assessment, and culturally and linguistically diverse education.

## **Visual Materials**

Visual materials used within the assessment should:

- Reflect concepts explicitly taught within the CKLA Farms Domain.
- Be developmentally appropriate for Kindergarten learners.
- Be culturally responsive and inclusive.
- Be obtained from educationally appropriate sources that permit classroom use.

Administrators should maintain records of any images or visual resources used during assessment administration.

## **GIDA Framework Attribution**

### **Growth-Informed Development Assessment (GIDA)**

Developed as a teacher-candidate assessment framework to demonstrate standards-aligned assessment design, instructional alignment, accommodation planning, and performance-based evaluation practices.

The GIDA framework is intended for educational demonstration purposes and has not undergone formal validation, reliability studies, psychometric analysis, or peer review.
